

March 3, 1968

Dear folks,

I was glad to receive Mother's letter last week and Daddy's yesterday. I also received the check yesterday, but I don't know how long it took to get here because they sent it to Rosario and I got it when we went up for Zone conference yesterday. It is good to hear what is going on at home.

Happy birthday to Aunt Lydia. I guess this letter will be late for one and early for the other but I really do wish them Happy Birthdays.

I'm glad Leon is improving his grades. I just hope he can improve his English grade.

I hope Mother makes the R.S. Chorus, it really would be an experience and I hope all of you get to go up, since I won't get to see the fair, I want someone to tell me about it.

Congratulations Tommy on being the best player, it really makes me happy to know you are doing your best.

Things down here have been quite slow
as far as investigators go, we have a few
but they fell through. We really feel
bless to partake of the spirit that
the members have here when we meet
with them. I think that the number
will come through real soon with
some of their friends because they
are getting the spirit of the plan.

We just receive our pamphlet, the
Mission Magazine. You can suppose
to receive it too. It has the plan in it
even though most of it is in Spanish.
I hope you can understand it.

We also receive our January Ensign
Instructors. And some Church News. I was
really surprised to find the Y.M.C. of College
Park want enclosing me. I am sending
the picture to them.

Yesterday when we were at the Annual
Conference we benomed Joseph Smith
American Prophet. What I have read of it so
far is really good and really shows the

March 3, 1968

Life of Joseph Smith.

It rained a couple of days the last week so the rainy month of March is here. The streets were just rivers and when it was raining it was just like sheets of water.

The kids are all going back to school. The school starts ~~on~~ about the first of August and goes till the end of November. That is the first semester. Then they are off during the summers till about March 1st and they go back to school till about the second week in July. And that is the year of school. Then they are off for about two weeks and start the next year.

Thank you very much for your prayers and I want to you to know I love you all very much also and only want the best for all of you.

It is 10:30 and I have another letter to write so I better close

Love always
Harv
