

7 de mayo de 1965

Dear Dad, Mom, Ruth, Tom, Lorin, Dennis, Lydia, Ann, Susan

Another wonderful week has gone by here in the work of the house and I am happy. We haven't had any baptisms as of yet but we have met some wonderful people. My companion is wonderful and has a wonderful spirit and a desire to serve the house.

Yesterday was the District Conference of the district in which we working and it was wonderful. It is a testimony to me to see the progress in the members of the Church here. The conference was held in the chapel of the Villa Sacramento branch which was just finished a couple of months ago and it really is nice. There are about 1200 members in the district and about 40% came out for the meetings. Members outstanding, leaders and others copying and wanting to comply with the wishes of the house. And the meetings were outstanding, with talks by district leaders and missionaries on their way home.

Today we had a wonderful Conference of missionaries with President Strong, his wife and the Elder in charge of proselyting. After they talk we had a wonderful four hours of testimonies. Although it has only been a ~~week~~^{month}, it was good to see the Strong's again. I really learn to love them while in the mission home.

The weather has been cooler lately and raining quite a bit. I guess the fall is coming in again.

About my address I will explain

Mono bloc. 3 — apartment building 3;

Manzana 3 — block 3; Dto 2 — ~~City~~ Apartment 2;

Seccion 1 — Section 1; Circunscripción 1a — Area 1a.

And the block of six letters were the train line the mail came on. But all mail comes out by bus, as we don't live on any main train line. The letters like FCNCR. me Ferrocarril Nacional General Roca or FCNGBM.

Ferrocarril Nacional General Bartolomé Mitre, etc.

My Spanish has improved a lot according to everybody and I guess it is because I know I had to say it right because no one else is going to say it for me. — That it is up to me.

Well I can't think of anything else to say so I will stop for now

Love

Hay
