

March 23, 1964

Dear folks.

I am sorry that I didn't get a letter written last week, I sat down a couple times to write but I got started and then had to go.

We have been pretty busy. Friday we started a softball activity. They don't play softball down here hardly at all. They play a little in primary school but that is all. So the activity really attracts investigators. We had about 15 last Friday and half were investigators so I think we can really use the activity for a good use.

Then Saturday we had a Cena (banquet) supper in regards to the Tilo program. The welfare plan down here, which really is the way they feed and cloth the construction Masons. There was around 95 people there and about 10 investigators. They had Raviole Aleman which are a German Ravioli but I can describe it since we eat raviole all the time and I can't remember which is which. Soup, Salad and a fruit salad for dessert. Also a orange drink.

Did Mary's Mother call you on the 20th. She said she would.

I was happy to receive the letter  
of all the kids. I wish I had  
time to answer them but I don't. So  
I will try to keep up a letter a week  
to the family.

For my birthday I had a dinner  
of pancakes, ham, potatoes and a cake for  
dessert at the house of the building superintendent.  
It was unusual but it was sure good.  
That is the only place we get to eat  
American food.

The weather has been pretty bad lately  
raining for hours and hours and flooding  
everything, but it isn't the raining season  
yet.

I received a letter from the  
bishop and I am going to try to answer  
it today.

I guess Helen and Terry are  
pretty busy. I haven't heard from them  
in over a month.

I received a letter from Daddy's  
parents but I haven't answered it yet.

March 23, 1964  
I bought a pair of shoes last week  
they seem to be pretty good shoes. They  
cost me \$12.00. They are around \$12.00. They  
are suppose to last me for awhile. I bought  
them so I could have a pair to trade off with  
my others.

Well although I haven't written  
in awhile I can't think of anything  
to say so I will close and get it sent  
off.

Love Always

Cory

Then Saturday we had a Banquet  
supper in regards to the Palo Alto program.  
The money from dinner here. What really is the  
way they feed and cloth the construction workers.  
There was around 95 people there and about 10  
investigators. They had Raisin Chicken which  
was a shrimp. Raisin but I can describe it  
and we eat ravioli all the time and I  
can't remember what is what. Soup. And  
a fruit cocktail. Also a orange  
drink.

Did I forget to mention call you on  
the 20th. She said she would.
