

8/11/65

Dear Folks:

I received your letters and I feel happy. Things are really moving here in Olavania. We are planning to change buildings and are preparing for Conference in December, besides trying to do a little Proselyting.

It sounds like Mother is doing some also. Keep it up Mom.

On the money. Why don't you just send the regular amount for December and send for January a little early.

On the trip on the way home I decided that the time ~~involved~~ involved is more precious to be with you at home than on top of Cusco or some other place in the world especially since school starts so soon and the money is tied down.

Well I will write more later in the week, we have to go now

Love Gary
