Dear Folks:

I received Daddy's letter Saturday and it was great to hear that you had received all my back letters. Also to hear that everything is mas o menos bien alli.

Things hear are moving about the same but maybe a little bit faster. The past week the President and his wife have been gone to a Mission President's Conference in San Paulo, Brazil. They got back Friday Night and then the President left Saturday morning for a conference in Bahia Blanca by plane and then flew back Saturday night so he has had quite a busy week.

Just before he left for Brazil, President Tuttle called to say that Elder Boyd Packer was going to come down to the Conference and wanted all the missions to do a special report on the idea of setting up a printing operation in their mission for all of South America. So, while the President was gone we, here in the office had a special assignment to do and we only had a week to do it in. Saturday afternoon Brother Packer stopped at the mission home for about 5 minutes between planes and got our written report and then took off for Chile and then Peru.

Yesterday was the trimestrial conference of one of the districts here in Buenas Aires so we all went. The attendance is really increasing at a phenomenal pace. There was about 100 at the Priesthood meeting which is about double what it has been and then between 450 and 500 at both of the general meetings. They were both outstanding general meetings about the idea of doing what the Lord has commanded us to do and the idea of doing our responsibility as member of the church.

The mission is really progressing; the members are catching the spirit of the work and searching for contacts even to the point that some of the Older people and members are setting apart 3 or 4 hours a day to do proselyting work and others are pairing off as missionaries and taking a section close to their homes and tracking them out and inviting those who are interested to come over to their houses for home meetings.

The weather here is getting warmer and fresher every day. How is it there? Has it really got cold yet or has it been pretty warm?

Thank you for sending the extra money and I think that it will do me till after the first of the year.

Well it is almost 6:30 and time for study class so I had better close this and get ready for class.

Good by and May God bless over you
you always

Love

Gary.
