

April 26

Dear Folks

I let another week go by without writing and I am sorry, but thanks for the wonderful letters that you have sent me.

I am fine and working harder in the Lord's work. I feel time slipping by faster and faster and I can't really see that I have done anything. The Lord is blessing me with more blessing than I am worth.

I come to love Argentina and the people here more and more each day. Especially the members of the Church here that are catching the vision of the Church and doing their part to further the Church and the Lord's work.

I especially feel blessed to have worked in the mission home and now in the branch of Ezeiza. As I have mentioned before, the people here are of high quality and intelligent and really are a choiced people.

Last Sunday was branch Conference and the brethren of the district were here. The Evangelist (Dist. pres) is really a wonderful humble man. Everytime I hear him speak I like him more. He has a profound knowledge of the scriptures and the gospel and is able to explain it in a way that every one can understand it.

Also the men of the family were present to receive the priesthood. And yesterday the boys passed the sacrament for the first time and it really was a joy to me to watch them and know I started them on the road.

Saturday eight others left for the states having finished their missions all as leaders of the mission. And it makes me realize even more how much I have to prepare myself in the short time I have left

About the word being changed, I heard rumors ~~and~~ awhile ago from Richard Groves. but since you didn't say anything I didn't think anything of it.

Well I have to clean up the apartment so I'd better sign for now.

Love my love to Ruth and everybody

May the Lord always watch over you and guide you

your son
with love
Harry
