

12th May 1969

Dear Falk.

I received Mather's letter of the 2nd and ~~the~~ Daddys of the 14th so I guess I better write.

Things really sound great at home. It sounds like the boys are really working hard in the yard and the house. And the weather really sounds wonderful. Here it is still warmer the sun but at night it really feels cold and since there is no central heat. All we have is a little heater that burns on a tube of gas and it runs out and costs.

The work is looking better and better. The members are bringing some of their friends out so I think we will have some newsgazers pretty soon.

Next Monday we have a Conference in D. A. with Elder Kimball and that we are

looking forward to because of
the new ideas and the spirit he
will bring.

I received a letter from
Gene yesterday and she really
sounds busy but happy which is
amazingly glad of.

Chuck ago just after M.A.
I started to feel real dizzy and sick
so I tried to go to bed and sleep. I
was so weak that I hardly could
get in bed but I did then I
couldn't sleep because I was shaking
so much. I don't know why even
now ~~except~~ unless it was the ~~Evil~~
Devil because it wasn't really cold
and I had the heater and three
blankets but still shook like I
was freezing. I know I was sick
from being worn out and lack of
sleep but I think that it was more.
I was all right after my compression
administered to me. I ~~also~~ could sleep
in peace and slept all day Wednesday

and after felt great but a little
weak from not eating.

I am watching my sleep more
now and trying to average around
8 hrs a night and eating the
right foods.

My Spanish is still lacking
quite a bit and even more now
because I became lazy for a while
& didn't continue to study and lost
some I am sure.

The scriptures are the same.
when I study them regularly,
I remember more of all of them
than if I try to just remember what
I have memorized. Well I am out
of time right now so will have to
stop

Love Always
Corey
