

June 26, 1964

Dear Folks,

I am sorry as usual that I haven't written sooner but I just haven't had time. Last Saturday we had three baptisms. Two sisters of the girl we baptized a week ago and Jose Kustensen the boy I mentioned before.

The two sisters of Mita were really happy; almost more than Mita was. After the service we had a testimony meeting and Mita bore her testimony. I almost felt like crying when she bore it. I was so happy. She has a strong sweet testimony and it has grown so much in the last little while. I feel so very happy in knowing it helped her to gain it.

I had the privilege of baptizing the two sisters Delia and Anai. The water was like ice water and the surf was really strong with wind, big waves and sand but they both had the faith and I will always remember them. These Mithu and

maybe their sister and two younger
brothers will be baptized this fall or
Sunday. I really have come
to love this family. They remind
me a lot of my family because
they are a large family and have
the lovely relationship that we
have.

Sunday was the Conference of the
Kama and now there is a local B.P.
here which is a lot better and a
step forward for the branch. Now we
can spend the whole time looking and teaching
those that have interest in learning the
truth.

It has been quite cold here lately
about 30° and lower. And without my
sweater I really would be cold. I also
have bought a wool button ^{scarf} or ~~scarf~~
and a Pierre hat to help me keep warm.

Monday we moved out of the Kama.
We have been looking for an apartment
for quite a long time and couldn't find
one in the center of town so finally

in the ploya. It is really a nice
apartment overlooking a big park and
a block from the ocean. It costs
a little bit more than the apartment in
the house (\$5.500) or very close (\$5.000)
but it is better all the way around. The
branch needs the space for classes and we
couldn't really have privacy in the branch.
That \$5.500 a month between is about \$37.50
at the present rate of exchange. I received
the check for July yesterday and the exchange
was 147 pesos/\$1 which is higher than it has
ever been since I have been here.

The work is so very wonderful and
I feel so much more enthusiastic since we
have had some baptisms.

How are things coming along?
How did your singing go at the fair
mother? Was the fair exciting?
Tommy sounds like he is being
a real good worker. I am so very
glad.

Well I am running out of
time so I will close and get
this letter sent off this afternoon

Give my love to everyone and
Happy Birthday Mather in case I don't
write again before your birthday
love you all so very much

Love always

Harry

P.S. Mail the letter to the same
address
