Dear Folks

Another week has gone flying by and it is time to write my wonderful folks and family. I want to tell you again right now how much I love you and appreciate all the things you have done for me during my life; especially during the past few years that I have been away. Every time I read in the Book of Mormon when one of the prophets starts by: "being born of goodly parents." I almost cry with the joy and gladness that I to have this pleasure without payment so Mom & Dad - Thanks.

It is so much of pleasure to be back out in the field doing proselyting work. The joy that I feel every day talking to the members and feeling their wonderful humble spirits and their desire to serve the Lord and comply with his commandments. And to meet people and watch them change their ideas and eventually their lives and see the change in their character and face. From sadness to happiness. I am so thankful that I have had the chance to come to Argentina. I love the office also and grew a lot there as far as my character goes but it isn't the same as the proselyting work.

②

The branch of Egeza is progressing immensely. More members are coming out and taking part than ever before. We have been visiting inactive members and challenging them to comply and attend church and a few of them came out yesterday to church.

Also we have been trucking and have got into a few homes to teach lessons and I think maybe we will be able to teach a few more lessons and eventually baptize them.

Have my love to Ruth well you?  
I guess I better go now.  
To good by for now

Love Always  
your son  
O. R. R.
