Dear Folks

Another wonderful week in the work of the Lord has gone by and I had the wonderful blessing to receive two uplifting letters from home. Thanks folks.

We have done a lot the past week and work hard. The hope is blessing more and more every day here in Argentina. I feel so very wonderful.

Mom, it really sounds wonderful and exciting to hear the way you are helping the Lord's work there at home. It makes me feel more proud of the fabulous parents I have. Good luck in receiving more contacts for the missionaries.

Say hello to Sister Gibson for me will you. Dad and boys. I am glad that you are finding time to what you love, that is to build the houses of prayer of our Lord and Saviour.

* Lydia I feel sorry that I am not able to be there to help you in your time of need. I know that you are a big girl now and won't be of any problem to anyone. The brass will be a big help to you &

(2)

Know. Honey, my prayers and thoughts are with you and I know with your faith that you will get better.

Herein I am proud of you if as Mother says, you have lost weight. Keep up the good work.

Now, I have been meaning to ask, a couple of weeks before I left the mission home I sent a couple of packages by boat of old letters, souvenirs, etc. Have they arrived? If not tell me anyway so I can have them traced.

Also I have had quite a few people ask me about Washington and I can tell them but I can't show them anything so if it wouldn't be too much bother could you collect a few post cards, maps, pictures, etc and send them to me air mail. Especially one of those picturesque maps of downtown Washington.

The experiences you as a family are having in the Home night program are probably very spiritual as well as being quite enjoyable.

Here in Argentina, the blessed members are working hard to prepare themselves to use

(3)

That excellent lesson manual to strengthen their families here.

The people here are really wonderful. We have been teaching a couple of real fantastic people who are humbling themselves before the Lord to obey his eternal commandments. I really feel blessed to be here and feel the power of the Lord working on and through my veins.

The Pampero came out today and it really looks good. The mission has really come along ways in the past while especially in the determination of the missionaries to do the work of the Lord.

Dad - I ask you I think once to send me a copy of your "line of authority" in the priesthood. I don't really feel that I shouldn't be without it.

Speaking of being without things. A couple of days ago I was going through some of my things checking on what I have and I couldn't find my selective service card or classification notice. I lost my pocket wallet awhile back and it must have been in there. I don't know if I should check on it through the American Embassy

(4)

here or have you do it there. I don't know
the number even, or the number of the board. I
memorized the number once but I don't have any idea
now at all. Could you call or check what I should do
from there. I know the boards for the D.C. Columbia
are in the District Building.

Well it is getting late and I better close so
I will mention again how much I love everyone
of you and my papers always include your welfare.

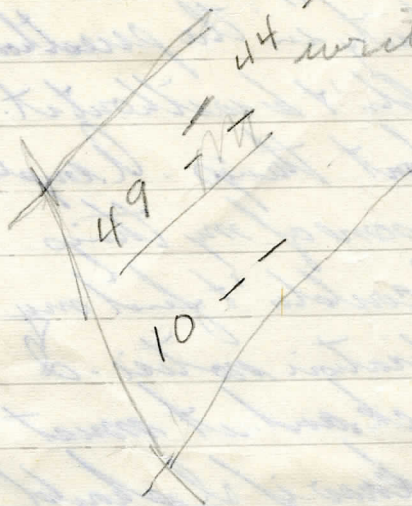

May God bless everyone of you
love always
