

Nov 23, 1965

Dear Folks:

Another week has gone flying by with lots of things happening.

The most important I guess is the missionary conference we had yesterday. We had to go to Tres Amigos - about 5 hours ride from here. In order to get a bus we rode over to Arenal - the nearest neighboring ranch and then waited for a couple of hours. We left here at 10:00 at night and then sat around Arenal till 2:30 in the morning and took the bus arriving at six in the morning. The Conference last from 8-5:30 and was really wonderful.

We then left at 6:30 and arrived back here at 12:00 midnight and fell in bed. Sleeping in a bed for the first time in two days, but it was all worth it because of the instructions we received and the spirit that was in the meeting.

I received your letter today and Congradulation on your calling as state missionary and Tommy yours as biology teacher.

(5)

I am glad to hear that my parent to  
register arrived. The forms I don't know  
anything about so I'll leave up to your  
judgement. If you don't think that it  
is anything that needs to be sent in order  
to make arrangements, that is fine I  
will look at them when I get home.

The work here is coming along wonderfully.  
The Lord is really blessing us with his goodness.  
I sure hope I can keep myself prepared to do his  
work.

I am going to send some books home  
either this or next week, so you can watch  
for them. They should arrive just before  
Mr. I hope. I will tell you definitely how  
many packages when I send them.

Well may the Lord bless you always  
with his blessings.

your son with love  
Larry.
