

May 10, 1965

Dear Folks.

I received your wonderful letter. It really is a boost every week from home to receive a letter and feel the warm and love come out through the lines.

My love for all of you grows and grows each day and month.

The past week has been quite a successful week, as we have taught quite a few lessons and help members to progress in the church. I feel like I am working quite hard but that I am still wasting quite a bit of time. We have working with quite a lot of converts and it is pretty definite that we will be able to get some in the water this coming week.

I feel more and more unsure of myself when I think of the future. I can see ahead responsibilities as the time goes along in the mission and I don't feel nearly as prepared to accept them and do a good job.

I know how you must have felt not knowing half the way because it happens to me here all the time. It is especially bad when they know me but I can't remember their name or where to place them in my memory.

How is Ruth doing? I hope that
she is improving if not the same.

Well the work must go on. I
feel a rush sometimes but it is so important
to keep busy.

May the Lord watch over you always

Love Always
