

August 23, 1964

Dear Folks.

Another wonderful week has gone by here in the mission home. Each day I learn more and more of the great responsibility I have first as a missionary and secondly as a missionary in charge of the literature department and especially here in the mission home.

During the week something happened that was outstanding. Through one of the missionaries and a contact that they had, President Strong, President Stone of the North Mission and President Tuttle and a few missionaries visited President Jullia of Argentina (Pres. of Argon) and talked to him for about 35 minutes, gave him a Book of Mormon. They said he was really friendly and seemed interested. They were on news cast that night on radio tapes and there were articles in the paper the next day.

I have really come to enjoy the mission home and the work of the head here that has to be done even though it is what you think of mission work.

Right now we are ordering more material

and stuff for the Home teaching program.
Also manuals for the Sunday school.

In the printing room we have
began to print the new integration
manual and we will probably finish
this week. Next we will start on the
boy scout manuals.

I am glad to hear that everything
is fine at home and you have enjoyed
your summer visitors.

Here in the mission home we have
a few visitors also. One of the missionaries
who is going home next Friday is Mother
and I wonder the same go down to go
home with him. They are stopping in
Washington on the way home and so don't
be surprised if you get a call in a couple
of weeks. They are from Cal. and ought to be
related to Daddy but I am not sure.
- There is a Mother in the line
also Kansas.

Well have to go
to my
love
Dey
