

15 de Septiembre, 1905

Dear Folks

I have been awful busy and I am really happy now I have a few minutes to write and tell you everything that is happening.

I can't remember if I told Lavin and Susan, "Happy Birthday from your big brother," so I will say it now. Also Dennis, "Happy Birthday, the 27th."

Things here are progressing but a lot slower than I think they should sometimes, especially in the proselyting work. I feel sometimes that we are wasting the Lord's time when we are tracting but I know that we will find somebody waiting for us eventually.

Monday, we had the missionary meeting here in Olavemia for the first time since I have been here and we went and play a little basketball afterwards - it felt good although it has been around 4 months since the last time I played.

Thursday 16

Well I got called away and never got back to finishing the letter but in the time elapse I received your letter of the 9th. So I will try to write a little in answer to it also.

What is this data sheet the Daddy is making going to be use for?

Tommy, I am proud of you for baptizing Susan

Susan - how lucky you are to be baptized in the Church of God, to have the guidance of his hand in your life. I hope and pray that we might all

Last night we went out to visit the Rodriguez family. I am sure I have mentioned them before but anyway they live out of town 7 K.M (about 4+ miles) on a farm. They take care of the land for a corporation. Anyway. they don't have any electricity and modern utensils of a farm of today and except for his truck and their portable

radio, you can see the line of
a 100-150 years ago here in Argentina
in the campo. He dresses almost like
the fotos you see of gauchos and some
of the workers do dress that way. The
live is hard but refreshing. Their
two kids play with the chickens, ducks,
geese, lambs, dogs, cats and horses just like
I did with the neighborhood kids.

The family gets up and goes to
bed with the sun and really are just
part of nature. Still they have strong
testimonies of the gospel and do all
that is possible to be completely active.
It makes me think about our forefathers
crossing the plains and settling the
west and I am sure it is somewhat
the same.

Well I have to go so I will
say once again but not enough that
I love you all so very much and
best to the boys and girls — Love
